

Small Island Developing States (SIDS) and Climate Change

Ilan Kelman: <http://www.ilankelman.org/contact.html>

Island Vulnerability and Resilience: <http://www.islandvulnerability.org>

Over the past few years, I and colleagues have published several scientific papers on Small Island Developing States (SIDS; <http://www.sidsnet.org>) dealing with climate change, as listed below.

The publications from the last few years are part of the Many Strong Voices programme <http://www.manystrongvoices.org> for climate change action in the Arctic and SIDS. As part of this programme, I have collected documents from the 1989 Maldives conference on SIDS and sea-level rise at <http://www.islandvulnerability.org/slr1989.html>

With thanks to everyone working on these topics and I would be delighted to receive the work of others so that I could learn from it.
