Pan Caribbean Disaster Preparedness & Prevention Project

UNDRO/PCDPPP
1989

INPUTS

ACTIVITIES

OUTPUTS

EXPECTED IMPACTS AND EFFECTS

THE LOGIC OF THE PCDP

- * National and Regional Emergency Planning Measures
- * Contributions by Caribbean States
- * Grants from donor agencies (Canadian, Italian, Netherlands and U.K. Governments)
- * Planning and Administration by implementing agencies (PAHO, LRCS, UNDR)
- * Complementary Programmes by other Agencies (USAID, UNDP, EDF, etc).

Hazard Analysis

Meteorological/Hydrological
Geological/Seismological
Health/Epidemiological
Agricultural, Housing Sector

Prevention and Mitigation

Building Standards
Land Use Regulation
Airport Systems
Disaster legislation

Research & Information

Promoting Research
Documentating Disaster Cases
Information Dissemination
Newsletter

Prediction and Warning

Radar/Telecommunications
Interpretation/Decision Making
Warning/Alert Communications

Vulnerability Analysis

Vulnerability of Critical Facilities
Hurricane Shelter Assessment
Coastal Areas

Preparedness Planning

Emergency Procedures
Logistics Planning
Health Sector Needs Assessment
Planning & Procedure
Critical Resource Inventory

Public Awareness
First Aid/Public
Health Training
Communication Planning
Red Cross/Voluntary
Sector Capacity

Training

Emergency
Management Skills
Voluntary Sector
Scientific/Technical
Specialists

- * Comprehensive National Emergency Management Policies
- * Plans and procedures for emergencies
- * Training workshops and materials
- * Simulations and Practices
- * Public Awareness Events, and Materials
- * Special Studies and Reports
- * Functioning Emergency Communication Systems
- * Inter-Agency Coordination
- * Communications and coordination among donors, implementing agencies and participating governments
- * Reduced Vulnerability of Public Utilities/Emergency Services/Critical Facilities
- * Hurricane Shelter Assessments
- * Vulnerability Assessments of Predominant Housing Types
- * Improved Building Codes/Zoning Practices
- * Hazard Risk Maps
- * Information/Documentation Exchange & Newsletter

- * LIVES SAVED, SUFFERING REDUCED, AND PROPERTY PRESERVED IN DISASTER SITUATIONS
- * Improved Coordination and communications between Countries and Aid Agencies in an emergency
- * Improved Self-sufficiency of the participating countries in an emergency.
- * Development Investments Protected
- * General Management/Self-sufficiency improved.
